

## Internet Explorer Compatibility View

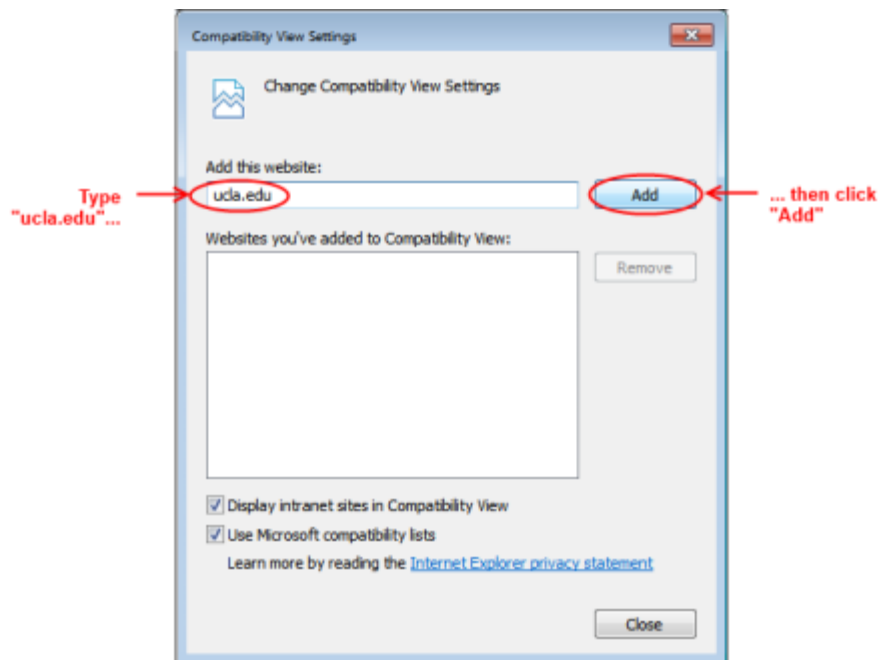

If you are taking one of UCLA CPC's online courses such as EMS Update or L.A. County EMT Scope of Practice, we recommend using **Google Chrome** or **Mozilla Firefox** as your browser. If you are using Microsoft Internet Explorer, you will need to make the following change to your settings.

1. If you haven't already done so, visit our web site, using Internet Explorer: <https://www.cpc.mednet.ucla.edu/>.

2. Click the Tools menu, which may either be labeled with the word "Tools" or the gear icon, as shown at right. Click "Compatibility View Settings."

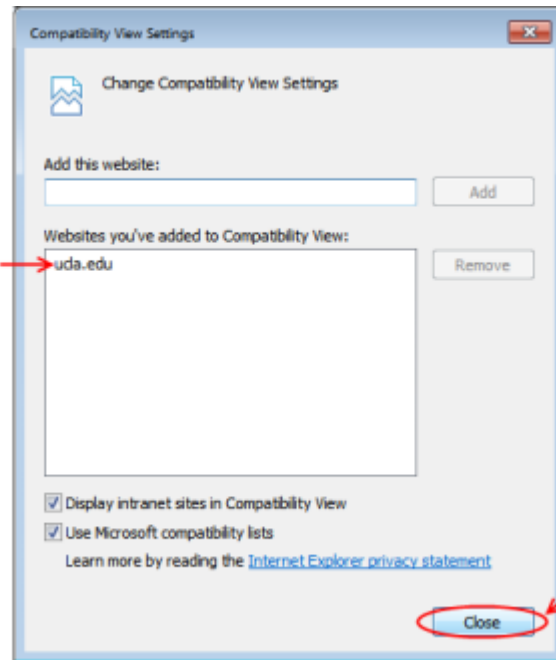

3. Type "ucla.edu" in the text box, and click "Add."

4. "Ucla.edu" will appear in the list box. Click "Close."

"ucla.edu" will be added to this list.

Then click Close

5. If you are already enrolled in the course, log in and click the course title on your "My Programs" page. Or, continue with the enrollment/registration process.
