

cur?ous

What could you do with a statistician, a writer, and a data analyst at your fingertips?

ATTEND OUR RESEARCH WORKSHOP TO FIND OUT!

NAVIGATOR 2017: Monday, April 10—Tuesday, April 11, 2017

EMERGENCY DISPATCH **RESEARCH** WORKSHOP

Hosted in partnership with the UCLA Center for Prehospital Care

David Page

Director of the Prehospital Care Research Forum at UCLA David, MS, NRP, Ph.D.(c), is a senior lecturer with Monash University and a field paramedic with Allina Health EMS in the Minneapolis/St. Paul area. He is also an internationally recognized speaker with more than 30 years of active EMS experience.

Mike Taigman

FirstWatch Improvement Guide Mike has spent more than 40 years advancing the EMS profession. He serves as the Improvement Guide for FirstWatch, assisting its partner EMS systems to create data-driven improvements.

Dr. Chris Olola

IAED Director of Biomedical Informatics & Research Chris has more than 25 years of informatics, clinical research, and analytics experience. He received his Ph.D. (Biomedical Informatics) from the University of Utah. He is also co-founder of Kenya Health Informatics Association.

Isabel Gardett

IAED Director of Academics, Research & Communications Isabel holds a Ph.D. in writing with a focus on scientific and technical communication. She is the Editor-in-Chief of the Academy's scientific peer-reviewed journal, the Annals of Emergency Dispatch & Response (AEDR).

Greg Scott

IAED Operations Research Analyst Greg has served as an emergency responder and an EMD. As a consultant for Priority Dispatch Corp., he led numerous implementations of EMD programs. Greg is also an EMD-Q® and a member of the IAED's Council of Standards.

Learn how to make your comm. center data WORK FOR YOU!

Our team of experts will guide you to unlock the possibilities of your CAD and ProQA® data to improve and benefit your communication center. You'll work in small groups to identify a research question, decide on methods, and craft your abstracts in a hands-on approach that makes research easy and fun. Statisticians, programmers, and editors are on-site to immediately give you step-by-step support and assist you in obtaining data, performing a statistical analysis, and constructing an abstract ready for submission or presentation.

No prior research experience required.

Register for this NAVIGATOR2017 pre-conference workshop at navigator.emergencydispatch.org
