Each author and co-author should submit a completed form (one form per person named on the abstract author list)

In the interest of transparency, we ask you to disclose all relationships/activities/interests listed below that are related to the content of your Abstract. "Related" means any relation with for-profit or not-for-profit third parties whose interests may be affected by the content of the abstract. Disclosure represents a commitment to transparency and does not necessarily indicate a bias. If you are in doubt about whether to list a relationship/activity/interest, it is preferable that you do so.

The following questions apply to the author's relationships/activities/interests as they relate to the current study only.

The author's relationships/activities/interests should be defined broadly. For example, if your study pertains to the epidemiology of hypertension, you should declare all relationships with manufacturers of antihypertensive medication, even if that medication is not mentioned in the abstract.
